

TWO CABINET LINES. ONE STANDARD OF QUALITY.

"Made to Last."

Bespoke Cabinets and Doors manufactures premium custom outdoor cabinets in Florida. Every cabinet is built to order and engineered specifically for long-term outdoor performance.

FULLY HDPE CABINETS

Our Premium, Fully Waterproof Line

CONSTRUCTION

Built entirely from King Starboard® ST, the same marine-grade HDPE sheet used throughout the boatbuilding industry for its density, rigidity, and total resistance to moisture. Every panel, door, and structural component is solid HDPE, so there is no wood, particleboard, or laminate anywhere in the cabinet — nothing to rot, swell, delaminate, or absorb water over time. The material is fully UV-stable and colorfast under direct Florida sun, and is considered a lifetime exterior material that never needs sealing, painting, or refinishing.

QUICK SPECS

- 100% HDPE construction — zero wood content
- Fully waterproof, will not rot or swell
- UV-stable, fade-resistant in direct sun
- Lifetime exterior material
- Custom built to any dimension or layout

HYBRID PVC / HDPE CABINETS

Built for Covered Outdoor Living Spaces

CONSTRUCTION

The cabinet box is built from 18mm solid PVC in a Light Gray finish — waterproof and low-maintenance — and assembled with Lamello Cabineo® 12 connectors for a fast, precise, exceptionally strong joint that can still be adjusted or disassembled later if needed. Doors, end panels, toe kicks, and fillers are manufactured from HDPE for the same weather resistance and UV stability as our premium line, while hinges and drawer slides are 304 stainless steel for long-term corrosion resistance outdoors. Base cabinets include adjustable leveling legs for fast, precise installation on uneven surfaces.

QUICK SPECS

- 18mm solid PVC cabinet box
- HDPE doors, end panels & toe kick
- Lamello Cabineo 12 connectors
- 304 stainless steel hinges & slides
- Adjustable leveling legs on base cabinets
- Custom built to any dimension or layout

Every Cabinet Is Custom Built — Any Dimension, Any Layout

Base, wall, pantry & appliance cabinets — designed around your outdoor kitchen.

CHOOSE YOUR DOOR STYLE

Every cabinet is available in six door profiles, so your outdoor kitchen matches your home's design aesthetic. All styles feature rounded edges and are finished in durable, weather-resistant HDPE.
